- EDUCATION **University of Chicago** Ph.D. in Geophysical Sciences, August 2015
Northwestern University B.A. in Integrated Science and Earth and Planetary Sciences, June 2009
- POSITIONS HELD **2017–present** Clare Boothe Luce Assistant Professor of Earth and Planetary Sciences, Harvard University
2015–2017 NSF Postdoctoral Fellow, Smithsonian National Museum of Natural History and the University of California Santa Cruz
2015–2017 Visiting Assistant Professor of Earth and Planetary Sciences, Harvard University
2010–2015 Graduate research assistant, University of Chicago, Laboratory for Mineral Physics
2009–2010 Graduate research assistant, University of Maryland, Laboratory for Mineral Physics
- SELECT HONORS AND AWARDS **2017–present** Clare Boothe Luce professorship, Henry Luce Foundation
2019–2021 Consortium for Materials Properties Research in Earth Sciences (COMPRES) Distinguished Lecturer
2015–2017 Postdoctoral Fellowship, National Science Foundation
2014 Graduate Research Award, Mineral and Rock Physics, American Geophysical Union
2014–2015 American Dissertation Fellowship, American Association of University Women
2014 Takken Award, Association of Women Geoscientists
2013–2014 Plotnick Fellowship, University of Chicago
2013–2014 Ludo Frevel Crystallography Scholarship, International Centre for Diffraction Data
2013 Career Development Award, Lunar and Planetary Institute
2012–2013 Graduate Research Fellowship, Illinois Space Grant Consortium
2009–2012 Graduate Research Fellowship, National Science Foundation
2009–2010 Flagship Fellowship, University of Maryland

INVITED
 CONFERENCE
 PRESENTATIONS

NASA Prebiotic Chemistry and Early Earth Environments Workshop, 2020. Accretion history & planetary dynamics: The influence of accretion, core formation, and magma oceans on habitability.
Goldschmidt Conference, 2020, Keynote talk. Influence of accretion and core formation on the light element compositions of planetary cores.
Deep Carbon Observatory Meeting, 2019. The carbon content of Earth's core from metal-silicate partitioning experiments.
AGU Fall Meeting, 2018. Metal-silicate partitioning of carbon to 59 GPa and >5000 K with implications for Earth's core formation.
NASA Differentiation: Building the Internal Architecture of Planets Meeting, 2018. What can the Hf-W system tell us about the mechanism and timing of Earth's core formation?
AGU Fall Meeting, 2017. Radial mixing and Ru-Mo isotope systematics under different accretion scenarios.

Magma Oceanology Workshop, 2016. Effects of core formation on the Hf–W system on Earth.

Goldschmidt Conference, 2016, Keynote talk. Sensitivities of Earth’s core and mantle compositions to accretion and differentiation processes.

European Geophysical Union General Assembly, 2016. The composition of Earth’s core from equations of state, metal–silicate partitioning, and core formation modeling.

Carbon at Extreme Conditions Workshop, Centre Européen de Calcul Atomique et Moléculaire (CECAM), 2015. Metal–silicate partitioning of Ni, Co, V, Cr, Si, and O in the presence of carbon to 100 GPa and 5700 K with application to Earth’s core formation.

Goldschmidt Conference, 2014, Keynote talk. Experimental constraints on the core’s Si and O contents from equations of state and metal–silicate partitioning.

Geological Society of America Annual Meeting, 2013. Phase diagrams of FeO and Fe–Si alloys.

Goldschmidt Conference, 2013. Phase diagrams of FeO and Fe–Si alloys.

CONTRIBUTED
CONFERENCE
PRESENTATIONS

AGU Fall Meeting, 2019. Using $\Delta^{95}\text{Mo}$ to trace late carbonaceous and non-carbonaceous contributions to the Earth and Mars.

Goldschmidt Conference, 2019. The carbon content of Earth’s core from metal–silicate partitioning experiments.

Lunar and Planetary Science Conference, 2019. Quantifying the probability of the Earth and Moon having the same tungsten isotopic composition.

AGU Fall Meeting, 2018. Equations of state of stishovite and CaCl₂-type SiO₂ to lower mantle conditions.

Goldschmidt Conference, 2018. Equations of state and phase diagram of SiO₂ to lower mantle conditions.

Lunar and Planetary Science Conference, 2018. The origin of the Moon’s Earth-like ¹⁸²W isotopic composition.

Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting, 2017. Sensitivities of Earth’s core and mantle compositions to accretion and differentiation processes.

Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting, 2017. Effects of core formation on the Hf–W system.

AGU Fall Meeting, 2016. Effects of core formation on the Hf–W system.

Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting, 2016. Radial mixing and Ru–Mo isotope systematics under different accretion scenarios.

Lunar and Planetary Science Conference, 2016. Radial mixing under different accretion scenarios: Observational constraints.

AGU Fall Meeting, 2015. The axial ratio of hcp Fe and Fe–Ni–Si alloys to the conditions of Earth’s inner core.

Deep Carbon Observatory Early Career Scientist Workshop, 2015. Metal–silicate reactions in the presence of carbon with application to Earth’s core formation.

Deep Carbon Observatory Early Career Scientist Workshop, 2015. Metal–silicate partitioning of Ni, Co, V, Cr, Si, and O in the presence of carbon to 100 GPa and 5500 K.

COMPRES Annual Meeting, 2015. The axial ratio of hcp Fe and Fe–Ni–Si alloys to the conditions of Earth’s inner core.

AGU Fall Meeting, 2014. Combining N-body accretion simulations with partitioning experiments in a statistical model of terrestrial planet accretion and core formation.

HPCAT Workshop, 2014. High pressure phase transition in (Mg,Mn)O.

COMPRES Annual Meeting, 2014. High pressure phase transition in (Mg,Mn)O.

Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting, 2014. Metal–silicate partitioning of Co, Ni, V, Cr, Si, and O up to 100 GPa and 5500 K.

Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting, 2014. Quantitative chemical analysis of carbon and oxygen in molten Fe-rich alloy by analytical transmission electron microscopy.

AGU Fall Meeting, 2013. Metal–silicate partitioning of Co, Ni, V, Cr, Si, and O up to 100 GPa and 5500 K: Implications for core formation.

Gordon Research Conference: Origins of Solar Systems, 2013. Dynamics and chemical evolution of the terrestrial planets from a large number of N-body simulations.

COMPRES Annual Meeting, 2013. High pressure metal–silicate partitioning of Co, Ni, Si, V, Cr, and O.

Lunar and Planetary Science Conference, 2013. Dynamics and chemical evolution of the terrestrial planets from a large number of N-body simulations.

Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting, 2013. Metal–silicate experiments in the laser-heated diamond anvil cell.

AGU Fall Meeting, 2012. High pressure melting, phase diagrams, and equations of state in the Fe–FeSi system with applications to Earth’s core.

COMPRES Annual Meeting, 2012. Equations of state and phase diagrams of iron–silicon alloys.

AGU Fall Meeting, 2011. Phase diagram and equation of state of Fe–Si alloy.

COMPRES Annual Meeting, 2011. The phase diagram of FeO.

COMPRES Annual Meeting, 2011. The phase diagram of FeO.

AGU Fall Meeting, 2010. Equation of state of FeO.

HPCAT/CDAC Short Course, 2010. Equation of state and B1/B8 phase transition in FeO.

International Mineralogical Association Meeting, 2010. Equation of state and B1/B8 phase transition in FeO.

COMPRES Annual Meeting, 2010. Equation of state and B1/B8 phase transition in FeO.

AGU Fall Meeting, 2008. Phase diagram of wüstite at high pressures and temperatures.

AGU Fall Meeting, 2007. Micro-XANES determination of Fe speciation in natural basalts at mantle-relevant fO_2 .

TEACHING
EXPERIENCE

Harvard University, professor

EPS10: A Brief History of the Earth

EPS142: Mineralogy

EPS248: Topics in Mineral Physics and Chemistry (rotating topics: Mineralogy of Planetary Interiors, Magma Oceanology, Volatiles in the Deep Earth)

University of Chicago, teaching assistant

PHSC 13500: Chemistry and the Atmosphere

GEOS 21000: Introduction to Mineralogy

GEOS 21200/31200: Physics of the Earth

MENTORING

As Ph.D. supervisor:

Matthew Brennan, 2017–present

Junjie Dong, 2017–present

Jesse Gu, 2020–present

As postdoctoral supervisor:

Kierstin Daviau, 2019–2020

Terry-Ann Suer, 2018–2021

Katlyn Turner, summer 2018

SCIENTIFIC AND
UNIVERSITY
SERVICE

Journal reviewer: American Mineralogist, Astronomy & Astrophysics, Astrophysical Journal, Calphad, Comptes Rendus Geoscience, Earth and Planetary Science Letters, Elements, Geochemical Perspectives Letters, Geochimica et Cosmochimica Acta, Geophysical Research Letters, High Temperatures-High Pressures, Icarus, Journal of Alloys and Compounds, Journal of Applied Physics, Journal of Geophysical Research: Planets, Journal of Geophysical Research: Solid Earth, Nature, Nature Astronomy, Nature Communications, Nature Reviews: Earth & Environment, Physics and Chemistry of Minerals, Physics of the Earth and Planetary Interiors, Powder Metallurgy, Proceedings of the National Academy of Sciences of the United States of America, Progress in Earth and Planetary Science, Review of Scientific Instruments, Science, Science Advances

2018–present Museum Committee member, Department of Earth and Planetary Sciences, Harvard University

2017–present Graduate Studies Committee member, Department of Earth and Planetary Sciences, Harvard University

2021 Session organizer, Goldschmidt Conference: *An interdisciplinary view of core–mantle interactions and processes*

2020 Session organizer and chair, American Geophysical Union Fall Meeting: *Accretion and differentiation of rocky planets: Perspectives from geophysics, geochemistry, & astronomy*

2019–2020 Daly Postdoctoral Fellowship Committee member, Department of Earth and Planetary Sciences, Harvard University

2019 Session organizer and chair, Goldschmidt Conference: *The Earth's Core and Lower Mantle: Composition, Structure, and Dynamics*

2018–2019 Search Committee member, Department of Earth and Planetary Sciences, Harvard University

2018 Session organizer and chair, American Geophysics Union Fall Meeting: *Composition and Material Properties of the Core*

2017–2018 Department colloquium organizer, Department of Earth and Planetary Sciences, Harvard University

2013–2018 Executive Committee member, Mineral and Rock Physics, American Geophysical Union

Meetings Committee member, 2015–2017

Student representative, 2013–2015

2017 Nominations Committee member, COMPRES

2017 Session organizer and chair, American Geophysical Union Fall Meeting: *Liquids and Melting in Earth and Planetary Interiors; Petrology, Partitioning, and Phase Diagrams at Extreme Conditions; and Rock-Fluid Interactions and Their Influence on Multiphase Flow in Petroleum Reservoirs*

2016–2017 Theme chair, Earth's Mantle and Core, 2017 Goldschmidt Conference

- 2016** Session organizer and chair, American Geophysical Union Fall Meeting: *Elasticity, Plasticity, and Microstructures in Planetary Interiors*
- 2015** Session organizer and chair, American Geophysical Union Fall Meeting: *Elasticity of Earth Materials: From Mantle to Core, and General Contributions to Mineral and Rock Physics*
- 2015** Panelist, COMPRES Annual Meeting, student and postdoc panel discussion: *Interviewing for a job*
- 2014** Session chair, Goldschmidt Conference: *Collisional evolution of terrestrial planets: Accretion and post-accretion bombardment*
- 2014** Session chair, Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting: *Earth composition*
- 2013** Session organizer and chair, American Geophysical Union Fall Meeting: *Chemistry and physics of Earth's lower mantle and core*
- 2013** Program Committee member and session chair, COMPRES Meeting
- 2012** Disciplinary Review Committee member, University of Chicago
- 2012–2013** Representative to the Dean's Student Advisory Board, University of Chicago
- 2011–2013** Student and Postdoc Committee member, COMPRES Chair, 2012–2013

OUTREACH

- 2017–present** Mentor for Harvard Graduate Women in Science and Engineering, Harvard University
- 2021** HMSC Connects! Podcast, Harvard Museums of Science & Culture (<https://hmsc.harvard.edu/podcast>)
- 2021** Interviewed for Eos (<https://eos.org/articles/superlasers-shed-light-on-super-earth-mantles>)
- 2019–2021** Advisor, WGBH Education
- 2020** Interviewed for:
 - The Harvard Crimson
 - Science Magazine (<https://www.sciencemag.org/news/2020/12/mars-lander-spots-deep-layers-beneath-surface-offering-clues-planet-s-formation>)
- 2019** Advisor, *Cosmic Origins* exhibit, Harvard Museum of Natural History (<https://hmnh.harvard.edu/cosmic-origins>)
- 2019** Interviewed for:
 - The Harvard Crimson
 - The Harvard Gazette (<https://news.harvard.edu/gazette/story/2019/07/mini-exhibits-at-the-museum-of-natural-history-feature-lunar-rock-from-apollo-12-mission/>)

- Harvard Museum of Natural History
(<https://hmnh.harvard.edu/news/lunar-sample-nasa-cosmic-origins-exhibition>)
- Harvard Magazine
(<https://www.harvardmagazine.com/2019/07/moon-landing-50th-anniversary-at-the-harvard-museum-of-natural-history#>)
- 2019** Public lecturer, Harvard Museum of Natural History
(<https://www.youtube.com/watch?v=NT9pNZRe7s0>)
- 2017–2019** Student presentation judge, COMPRES Meeting
- 2018** Panelist, Harvard Origins of Life Initiative symposium
- 2018** Student presentation judge, Dwornik Award, Lunar and Planetary Science Conference
- 2018** Interviewed for:
The Harvard Crimson
(<http://www.thecrimson.com/article/2018/3/8/eps-new-junior-faculty/>)
Popular Science (<https://www.popsci.com/diamonds-meteorites-long-lost-planet>)
- 2016–2018** Student presentation judge, Outstanding Student Paper Award, Mineral and Rock Physics, AGU Fall Meeting
- 2017** Speaker, Lightning Talks, Smithsonian National Museum of Natural History (<https://www.youtube.com/watch?v=3IWGsUhhmD4>)
- 2017** Interviewed for:
The Harvard Crimson
Popular Science (<https://www.popsci.com/neutron-star-gold>)
- 2016** CRAM career mentor, AGU Fall Meeting
- 2016** Halloween “Air and Scare” Event, Smithsonian National Air and Space Museum
- 2016** Panelist, “Science Speed Dating” program for high school interns, Smithsonian National Museum of Natural History
- 2016** Science fair judge:
DC elementary school STEM fair
DC middle and high school STEM fair
- 2016** Interviewed for:
GeoSpace, American Geophysical Union Blogosphere
(<http://blogs.agu.org/geospace/2016/06/15/new-study-questions-source-rare-earth-metals-provide-clues-lifes-origins>)
EARTH Magazine
Live Science (<http://www.livescience.com/53431-magnesium-powers-earth-magnetic-field.html>)

- 2015** “Scientist is In” program, Smithsonian National Museum of Natural History
- 2015** Speaker, volunteer education event, Smithsonian National Museum of Natural History
- 2015** Interviewed for Smithsonian Magazine
(<http://www.smithsonianmag.com/science-nature/weird-new-type-carbon-harder-brighter-than-diamond-180957433>)
- 2014** Science fair judge, St. Thomas Elementary School, Chicago, IL
- 2014** Speaker, American Association of University Women, Chicago branch
- 2012, 2013** Speaker, undergraduate geology club, University of Chicago
- 2012** Essay judge, New Frontiers in Astronomy and Cosmology
- 2012** Science mentor, St. Thomas Elementary School, Chicago, IL
- 2010–2011** Math club leader, William H. Ray Elementary School, Chicago, IL
- 2010** Maryland Day volunteer, University of Maryland
- 2009** Science club leader, Dr. Bessie Rhodes Magnet School, Skokie, IL
