EDUCATION

University of Chicago Ph.D. in Geophysical Sciences, August 2015

Northwestern University B.A. in Integrated Science and Earth and Planetary Sciences, June 2009

POSITIONS HELD

2017–present Clare Boothe Luce Assistant Professor of Earth and Planetary Sciences, Harvard University

2015–2017 NSF Postdoctoral Fellow, Smithsonian National Museum of Natural History and the University of California Santa Cruz

2015–2017 Visiting Assistant Professor of Earth and Planetary Sciences, Harvard University

2010–2015 Graduate research assistant, University of Chicago, Laboratory for Mineral Physics

2009–2010 Graduate research assistant, University of Maryland, Laboratory for Mineral Physics

SELECT HONORS AND AWARDS

2017–present Clare Boothe Luce professorship, Henry Luce Foundation

2022 Doornbos Memorial Prize, Study of the Earth's Deep Interior

2019–2021 Consortium for Materials Properties Research in Earth Sciences (COMPRES) Distinguished Lecturer

2015–2017 Postdoctoral Fellowship, National Science Foundation

2014 Graduate Research Award, Mineral and Rock Physics, American Geophysical Union

2014–2015 American Dissertation Fellowship, American Association of University Women

2014 Takken Award, Association of Women Geoscientists

2013–2014 Plotnick Fellowship, University of Chicago

2013–2014 Ludo Frevel Crystallography Scholarship, International Centre for Diffraction Data

2013 Career Development Award, Lunar and Planetary Institute

2012–2013 Graduate Research Fellowship, Illinois Space Grant Consortium

2009–2012 Graduate Research Fellowship, National Science Foundation

2009–2010 Flagship Fellowship, University of Maryland

BOOKS EDITED

Terasaki H., Fischer R.A., editors (2016) *Deep Earth: Physics and Chemistry of the Lower Mantle and Core*. AGU Geophysical Monograph Series, American Geophysical Union/John Wiley & Sons.

Carnegie Institution of Washington, Geophysical Laboratory, 2014.

Invited Conference Presentations

Gordon Research Conference: Interior of the Earth, 2023. How and when did Earth's core form?

Study of the Earth's Deep Interior Meeting, 2022. The origins of Si, O, and C in planetary cores.

Rocky Worlds II Conference, 2022. The solid mantle water storage capacities and divergent fates of water on Earth and Mars.

Advances in Synchrotron-Based Research Towards Understanding the Structure, Evolution, and Dynamics of Earth and Planetary Interiors Workshop, 2021. Axial and radial diffraction studies of Mg_2SiO_4 and Fe–Si(–Ni) alloys.

Goldschmidt Conference, 2021. The origins of the mantle's carbon and the bulk carbon content of the Earth.

NASA Prebiotic Chemistry and Early Earth Environments Workshop, 2020. Accretion history & planetary dynamics: The influence of accretion, core formation, and magma oceans on habitability.

Goldschmidt Conference, 2020, Keynote talk. Influence of accretion and core formation on the light element compositions of planetary cores.

Deep Carbon Observatory Meeting, 2019. The carbon content of Earth's core from metal–silicate partitioning experiments.

AGU Fall Meeting, 2018. Metal–silicate partitioning of carbon to 59 GPa and >5000 K with implications for Earth's core formation.

NASA Differentiation: Building the Internal Architecture of Planets Meeting, 2018. What can the Hf–W system tell us about the mechanism and timing of Earth's core formation?

AGU Fall Meeting, 2017. Radial mixing and Ru–Mo isotope systematics under different accretion scenarios.

Magma Oceanology Workshop, 2016. Effects of core formation on the Hf–W system on Earth.

Goldschmidt Conference, 2016, Keynote talk. Sensitivities of Earth's core and mantle compositions to accretion and differentiation processes.

European Geophysical Union General Assembly, 2016. The composition of Earth's core from equations of state, metal–silicate partitioning, and core formation modeling.

Carbon at Extreme Conditions Workshop, Centre Européen de Calcul Atomique et Moléculaire (CECAM), 2015. Metal–silicate partitioning of Ni, Co, V, Cr, Si, and O in the presence of carbon to 100 GPa and 5700 K with application to Earth's core formation.

Goldschmidt Conference, 2014, Keynote talk. Experimental constraints on the core's Si and O contents from equations of state and metal–silicate partitioning.

Geological Society of America Annual Meeting, 2013. Phase diagrams of FeO and Fe–Si alloys.

Goldschmidt Conference, 2013. Phase diagrams of FeO and Fe–Si alloys.

Contributed Conference Presentations

AGU Fall Meeting, 2019. Using Δ^{95}Mo to trace late carbonaceous and non-carbonaceous contributions to the Earth and Mars.

Goldschmidt Conference, 2019. The carbon content of Earth's core from metal–silicate partitioning experiments.

Lunar and Planetary Science Conference, 2019. Quantifying the probability of the Earth and Moon having the same tungsten isotopic composition.

AGU Fall Meeting, 2018. Equations of state of stishovite and $CaCl_2$-type SiO_2 to lower mantle conditions.

Goldschmidt Conference, 2018. Equations of state and phase diagram of SiO_2 to lower mantle conditions.

Lunar and Planetary Science Conference, 2018. The origin of the Moon's Earth-like ^{182}W isotopic composition.

Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting, 2017. Sensitivities of Earth's core and mantle compositions to accretion and differentiation processes.

Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting, 2017. Effects of core formation on the Hf–W system.

AGU Fall Meeting, 2016. Effects of core formation on the Hf–W system.

Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting, 2016. Radial mixing and Ru–Mo isotope systematics under different accretion scenarios.

Lunar and Planetary Science Conference, 2016. Radial mixing under different accretion scenarios: Observational constraints.

AGU Fall Meeting, 2015. The axial ratio of hcp Fe and Fe–Ni–Si alloys to the conditions of Earth's inner core.

Deep Carbon Observatory Early Career Scientist Workshop, 2015. Metal–silicate reactions in the presence of carbon with application to Earth's core formation.

Deep Carbon Observatory Early Career Scientist Workshop, 2015. Metal–silicate partitioning of Ni, Co, V, Cr, Si, and O in the presence of carbon to 100 GPa and 5500 K.

COMPRES Annual Meeting, 2015. The axial ratio of hcp Fe and Fe–Ni–Si alloys to the conditions of Earth's inner core.

AGU Fall Meeting, 2014. Combining N-body accretion simulations with partitioning experiments in a statistical model of terrestrial planet accretion and core formation.

HPCAT Workshop, 2014. High pressure phase transition in (Mg,Mn)O.

COMPRES Annual Meeting, 2014. High pressure phase transition in (Mg,Mn)O.

Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting, 2014. Metal–silicate partitioning of Co, Ni, V, Cr, Si, and O up to 100 GPa and 5500 K.

Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting, 2014. Quantitative chemical analysis of carbon and oxygen in molten Fe-rich alloy by analytical transmission electron microscopy.

AGU Fall Meeting, 2013. Metal–silicate partitioning of Co, Ni, V, Cr, Si, and O up to 100 GPa and 5500 K: Implications for core formation.

Gordon Research Conference: Origins of Solar Systems, 2013. Dynamics and chemical evolution of the terrestrial planets from a large number of N-body simulations.

COMPRES Annual Meeting, 2013. High pressure metal–silicate partitioning of Co, Ni, Si, V, Cr, and O.

Lunar and Planetary Science Conference, 2013. Dynamics and chemical evolution of the terrestrial planets from a large number of N-body simulations.

Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting, 2013. Metal–silicate experiments in the laser-heated diamond anvil cell.

AGU Fall Meeting, 2012. High pressure melting, phase diagrams, and equations of state in the Fe–FeSi system with applications to Earth's core.

COMPRES Annual Meeting, 2012. Equations of state and phase diagrams of iron–silicon alloys.

AGU Fall Meeting, 2011. Phase diagram and equation of state of Fe–Si alloy.

COMPRES Annual Meeting, 2011. The phase diagram of FeO.

COMPRES Annual Meeting, 2011. The phase diagram of FeO.

AGU Fall Meeting, 2010. Equation of state of FeO.

HPCAT/CDAC Short Course, 2010. Equation of state and B1/B8 phase transition in FeO.

International Mineralogical Association Meeting, 2010. Equation of state and B1/B8 phase transition in FeO.

COMPRES Annual Meeting, 2010. Equation of state and B1/B8 phase transition in FeO.

AGU Fall Meeting, 2008. Phase diagram of wüstite at high pressures and temperatures.

AGU Fall Meeting, 2007. Micro-XANES determination of Fe speciation in natural basalts at mantle-relevant fO_2.

TEACHING EXPERIENCE

Harvard University, professor

EPS 10: A Brief History of the Earth

EPS 54: Minerals and Rocks of the Earth and Planets

EPS 142: Mineralogy

EPS 248: Topics in Mineral Physics and Chemistry (rotating topics: Mineralogy of Planetary Interiors, Magma Oceanology, Volatiles in the Deep Earth, Foundations of Mineral Physics)

MENTORING

As Ph.D. supervisor:

Chiara Chung-Halpern, 2022–present

John Sheehan, 2022–present

Jesse Gu, 2020–present

Junjie Dong, 2017–2023

Matthew Brennan, 2017–2022

As undergraduate research supervisor:

Lucy Jacobsen, 2023–present

Darius Mardaru, 2021–present

As postdoctoral supervisor:

Kierstin Daviau, 2019–2020

Terry-Ann Suer, 2018–2021

Katlyn Turner, summer 2018

As visiting scientist mentor:

Riko Iizuka-Oku, 2021–2023

And numerous other short-term high school and undergraduate interns

2023–present Study of Earth's Deep Interior 2024 scientific steering committee member

2022–present Co-organizer/host of Rocky Worlds Discussions

2018–present Museum Committee member, Department of Earth and Planetary Sciences, Harvard University

2017–present Graduate Studies Committee member, Department of Earth and Planetary Sciences, Harvard University

2023 Session organizer, American Geophysical Union Fall Meeting: *Of cores we can: Interdisciplinary studies of Earth and planetary cores*; and *Planetary formation and differentiation in the inner Solar System: From molecular cloud to rocky planets*

2023 Panelist for Academic Job Market Summer Camp, University of Chicago

2021–2022 COMPRES Annual Meeting Committee member
Chair, 2021

2021–2022 COMPRES Facilities Committee member

2021 Session chair, COMPRES Annual Meeting

2021 Session organizer, Goldschmidt Conference: *An interdisciplinary view of core–mantle interactions and processes*

2020 Session organizer and chair, American Geophysical Union Fall Meeting: *Accretion and differentiation of rocky planets: Perspectives from geophysics, geochemistry, & astronomy*

2019–2020 Daly Postdoctoral Fellowship Committee member, Department of Earth and Planetary Sciences, Harvard University

2019 Session organizer and chair, Goldschmidt Conference: *The Earth's Core and Lower Mantle: Composition, Structure, and Dynamics*

2018–2019 Search Committee member, Department of Earth and Planetary Sciences, Harvard University

2018 Session organizer and chair, American Geophysics Union Fall Meeting: *Composition and Material Properties of the Core*

2017–2018 Department colloquium organizer, Department of Earth and Planetary Sciences, Harvard University

2013–2018 Executive Committee member, Mineral and Rock Physics, American Geophysical Union

Program Committee member, 2015–2017

Student representative, 2013–2015

2017 Session organizer and chair, American Geophysical Union Fall Meeting: *Liquids and Melting in Earth and Planetary Interiors*; *Petrology, Partitioning, and Phase Diagrams at Extreme Conditions*; and *Rock-Fluid Interactions and Their Influence on Multiphase Flow in Petroleum Reservoirs*

2017 Nominations Committee member, COMPRES

2016–2017 Theme chair, Earth's Mantle and Core, 2017 Goldschmidt Conference

2016 Session organizer and chair, American Geophysical Union Fall Meeting: *Elasticity, Plasticity, and Microstructures in Planetary Interiors*

2015 Session organizer and chair, American Geophysical Union Fall Meeting: *Elasticity of Earth Materials: From Mantle to Core*, and *General Contributions to Mineral and Rock Physics*

2015 Panelist, COMPRES Annual Meeting, student and postdoc panel discussion: *Interviewing for a job*

2014 Session chair, Goldschmidt Conference: *Collisional evolution of terrestrial planets: Accretion and post-accretion bombardment*

2014 Session chair, Accretion and Early Differentiation of the Earth and Terrestrial Planets Meeting: *Earth composition*

2013 Session organizer and chair, American Geophysical Union Fall Meeting: *Chemistry and physics of Earth's lower mantle and core*

2013 COMPRES Annual Meeting Committee member and session chair

2012 Disciplinary Review Committee member, University of Chicago

2012–2013 Representative to the Dean's Student Advisory Board, University of Chicago

2011–2013 Student and Postdoc Committee member, COMPRES

Chair, 2012–2013

OUTREACH

2017–present Mentor, Harvard Graduate Women in Science and Engineering, Harvard University

2023 Interviewed for:

LiveScience (https://www.livescience.com/planet-earth/how-do-we-know-how-old-earth-is)

Space.com (https://www.space.com/17777-what-is-earth-made-of.html)

2021 Mentor, Goldschmidt Mentor Program

2021 Science fair judge, Regeneron International Science and Engineer Fair (ISEF)

2021 Interviewed for:

HMSC Connects! Podcast, Harvard Museums of Science & Culture (https://hmsc.harvard.edu/podcast)

Eos (https://eos.org/articles/superlasers-shed-light-on-super-earth-mantles)

2019–2021 Advisor, WGBH Education

2020 Interviewed for:

The Harvard Crimson

Science Magazine (https://www.sciencemag.org/news/2020/12/mars-lander-spots-deep-layers-beneath-surface-offering-clues-planet-s-formation)

2019 Advisor, *Cosmic Origins* exhibit, Harvard Museum of Natural History (https://hmnh.harvard.edu/cosmic-origins)

2019 Interviewed for:

The Harvard Crimson

Harvard Museum of Natural History (https://hmnh.harvard.edu/news/lunar-sample-nasa-cosmic-origins-exhibition)

The Harvard Gazette (https://news.harvard.edu/gazette/story/2019/07/mini-exhibits-at-the-museum-of-natural-history-feature-lunar-rock-from-apollo-12-mission/)

Harvard Magazine (https://www.harvardmagazine.com/2019/07/moon-landing-50th-anniversary-at-the-harvard-museum-of-natural-history#)

2019 Public lecturer, Harvard Museum of Natural History (https://www.youtube.com/watch?v=NT9pNZRe7s0)

2018–2019 Consultant for children's book Your Place in the Universe (2020) by Jason Chin

2017–2019 Student presentation judge, COMPRES Meeting

2018 Panelist, Harvard Origins of Life Initiative symposium

2018 Student presentation judge, Dwornik Award, Lunar and Planetary Science Conference

2018 Interviewed for:
